THE PEAKS RESORT

### WHAT'S NEW FOR 2011?

Well, first and most important is new snow, we have received upwards of 2 feet of fresh in the last week providing us with a great early season base. Then, in case you didn't notice, we moved our operations into the **Peaks Resort and Spa**, allowing us to walk right out of the door to our heli pad. To Celebrate, we are offering \$899 single day heli-skiing if you book a room at the Peaks before 11/20/2010, and you receive 20% off your room rate.

### WHAT ELSE?

We have put together an 8 run private cabin package for those of you that are not satisfied with 6 runs a

day. Get 4 hard chargers together, book a trip before 12/15/2010 and for \$1099 we will crank it up and see what you've got.

### HELICOPTER ASSISTED BACKCOUNTRY SKIING!

For those backcountry skiers that want to explore terrain that is just a bit out of range of the regular day tour. Hook up with one of our guides, get a bump up to 13,000 feet in the morning and spend the rest of the day skiing and skinning your way back to town. Call for details.

### GEAR ROUND UP

We have a brand new fleet of K2 powder skis, including pontoons, dark sides and side stashes. As always these are all complimentary for our clients to use when you join us for a day of skiing. Also the guides will be sporting the latest in North Face and ski wear that just arrived here in the office, we will be looking.
